

- ✓ CQC 'Outstanding' ★★★
- ✓ BMA contract
- ✓ Daily 'coffee time' support encouraged
- ✓ Multiple CPD activities and CPD time
- ✓ Portfolio careers encouraged
- ✓ Training, teaching and research opportunities

Part Time Salaried GP or Post CCT GP development role *(4-7 sessions negotiable)*

The Corbett Medical Practice, Droitwich Spa, Worcestershire

Join us, expand our team and grow our service to respond to an ever changing general practice. We are looking for GPs to add to our workforce. We are a happy, close working team with a shared and supportive ethos. We believe portfolio careers bring considerable experience to the practice. They help us develop and learn from each other; we can help facilitate your aspirations. Leadership and Partnership opportunities will be available.

We are proud of our 'Outstanding' CQC rating;

'The practice had a clear vision which had integrity, continuity of care, team work and trust as its core principles.'

Post CCT year development GP

If you have recently completed GP Training but feel that a further year of support and development would set you up for an enriching future career, then the GP development role is designed for you. You will have an experienced educator to help devise a learning plan bespoke to your needs and framework to make sure it is achieved. Support for on-calls. Opportunities for future permanent employment could then be mutually agreed at the end of the year.

Salaried GP

Are you a patient-focused GP who has existing skills you wish to develop or start something new? This is the job for you. Competitive salaried offered.

Applicants for either role considered for this recruitment. Flexible sessions accommodated for.

We are early adopters of change and have developed the very supportive, highly performing, multi-professional team you would expect. Our PCN has been proactive in appointing Allied Health Professionals.

Our practice is close to Birmingham and motorway hubs, but benefits from being in Worcestershire; less pollution, less traffic and great schools.

Informal visits and enquiries are encouraged. Closing date: 5th September 2021
